

Two Hearts ~ One Life Together.

creating memories of your special day

Our Approach

We believe that every couple is unique and their wedding day photography should reflect their personalities and the style of photography that they want.

- We focus on details - from the flowers you've chosen, the rings you now wear, the jewellery you wear, even the shoes you wear - your choices reflect you and we want these choices captured.
- We focus on you and your day - the laughter, the tears, the absolute joy and the crazy, spontaneous events and carefree moments that happen.
- We prefer to work with time frames (with the "one hour photography" as our exception) rather than punch a clock - we would rather go beyond our approximated times than miss a special moment.
- While all coverage descriptions are of time frames, please note that they represent guidelines only and can be altered in many instances to meet your needs.
- We will meet with you prior to your wedding day to walk your chosen location(s) and work with you to ensure you are getting the special and important images you want.

Vincent has been creating artistic images for over 25 years, keeping up with trends and technology the whole time.
